

Teknoflor® Captures Best of NeoCon Gold

Chicago (June 10, 2018) –Teknoflor®, a major manufacturer and distributor of flooring products announced that its Coordination Collection received a Gold Best of NeoCon Award for Healthcare Flooring at NeoCon, in Chicago, Ill. The collection includes three sets of coordinating resilient sheet, planks and tiles.

The Teknoflor Coordination Collection was designed to enhance the organization of different elements of a project so as to enable them to work together more effectively. From patient rooms to corridors and offices in-between, the collection inspires spaces with boundless design and abundant versatility.

The Coordination Collection includes six products with unique yet collaborative visuals in compositions that make their integration efficient and beautiful.

Forestscapes HPD Resilient Sheet and Forest Plank Luxury Vinyl Plank were designed to create versatility of design and diversity of installation in healthcare, a need that the industry has pleaded for. Resilient sheet has had its place in healthcare for decades; however, the rise of LVT has created a dilemma between beauty and logic. Now, the same beautiful visual can be transformed throughout a single project with the same warranty, same company and same contact and without the need for transition.

CS Sheet and Tile bring a new diversity to homogeneous flooring solutions as they break through the boundaries of traditional homogeneous sheet installations. Move beyond the operating room without altering your project's aesthetic or functionality. This chip on chip design has been thoughtfully designed for heightened contrast to detect operating utensils and for ultimate vibrancy.

Naturescapes HPD resilient sheet and Nature's Tile are chlorine-free commercial flooring solutions that bring environmental sustainability and ultimate transparency to the marketplace in two durable and versatile formats. Nature's Tile is cut from the exact print film used in Naturescapes HPD, expanding its sustainable design opportunity to a modular form.

"The coordination collection truly brings a new level of versatility and opportunity the marketplace," said Jeff Collum, President and CEO of Teknoflor. "We have been asked for it for years, and we're thrilled to finally be able to bring this to market and could not be prouder of this award."

Teknoflor is on the seventh floor of the Merchandise Mart in booth 7-7112

About Teknoflor:

Teknoflor is a major manufacturer and distributor of high-performance flooring products with a strong focus on Healthcare, Senior Care, Government, Corporate, Hospitality, Retail and Education environments.
