

SHOALS GOLD RECORD ROOM

MUSCLE SHOALS, ALABAMA

The Alabama Music Hall of Fame is firmly planted in Tusculumbia, but those visiting the north side of the Tennessee River can get a taste of it downtown in the new “Shoals Gold Record Room”. Owners of the local Sun Trust bank building created a public space on the ground floor that contains memorabilia on loan from the hall of fame, as well as Muscle Shoals music items loaned by private collectors. The owners said that the space was underutilized for 20 years and that they wanted it to reflect the area, to pay tribute to the musical heritage that the area is so proud of.

One of the highlights of the space is the custom cutting of Teknoflo’s Think Ahead LVT in the shape of two large guitars that span across both sides of the “L” shaped space.
